Sacramento, CA 95814  
State Clearinghouse Number 96032083

AUG 12 1999

9 August 1999

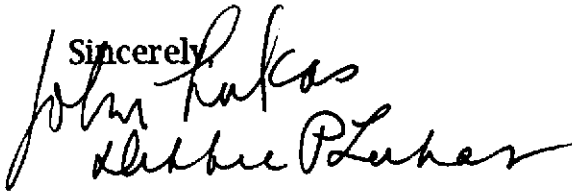

To Whom it May Concern,

We support the revitalization of the bay and delta without the building of new dams and expanding reservoirs.

We encourage CALFED to consider more aggressive water conservation, ecological restoration and pollution prevention practices before taking actions which would cost taxpayers money and further degrade the bay's health.

Increase the flow of fresh water through the bay-delta ecosystem. Invest in more water use efficiency.

Sincerely,

Handwritten signatures of John Lukas and Debbie Lukas. John's signature is in cursive and appears first, followed by Debbie's signature, also in cursive.
